Product description

The Baseus Free2Draw is characterised by its 1 metre length and two USB-C ports that can be retracted into a practical housing, saving users the time and frustration of untangling cables. It also enables fast charging with 100W power - a Nintendo Switch is fully charged in just 2.5 hours, an iPad Pro 11" in 2.4 hours and a MacBook Pro 16 in just 2 hours. The compact dimensions of the cable housing make it extremely easy to transport, so it fits easily into trouser pockets, handbags or rucksacks.

Fast charging with 100W PD
The Baseus Free2Draw cable supports Power Delivery (PD) technology with 100W, ensuring extremely fast charging of your devices. A Nintendo Switch is fully charged in just 2.5 hours, an iPad Pro 11" in 2.4 hours and a MacBook Pro 16 in just 2 hours. This feature is crucial for people who are on the go and can't wait for their devices to charge.

Practical retractable mechanism
The unique retractable housing significantly improves the usability of the cable by preventing tangles and damage. Thanks to this solution, the cable always remains tidy and ready for use, which is particularly important for those who often take it with them.

Compact size
The compact dimensions of the cable housing (60.7mm in diameter and 28.8mm in height) make it incredibly easy to transport. It fits easily into trouser pockets, handbags or rucksacks and is always ready to hand when you need it.

Durability and resistance
The cable is made of high-quality materials: PC and TPE, which ensures its durability and resistance to damage. The black housing not only adds an elegant touch, but also protects the cable from external influences.

Fast data transfer
The Baseus Free2Draw offers data transfer speeds of up to 480Mbps, making it an excellent tool for fast file transfers between devices. This is an essential feature for professionals and technology enthusiasts who need a reliable and efficient data transfer cable.
