Baseus Silky Series USB-A to Lightning Fast Charging Cable 2.4A 2m – Cluster Black

USB-A to Lightning charging and data cable
Supports charging current up to 2.4A
Transfers compatible data at speeds up to 480Mbps
Flexible PVC jacket for comfortable everyday handling
Straight USB-A and Lightning connectors
Suitable for compatible Apple devices with a Lightning port
Extended 2-meter cable length
Cluster Black version with part number P10377702113-01

Availability: In Stock
Product Code: 68792
Brand: Baseus

JOD 6.00

The Baseus Silky Series USB-A To Lightning Cable Is Designed For Charging And Data Synchronization With Compatible Apple Devices Equipped With A Lightning Port. It Supports Charging Current Up To 2.4A And Data Transfer Speeds Up To 480Mbps.

The soft PVC cable jacket provides flexible everyday handling, while the 2-meter length offers additional reach for desks, bedside charging, offices, vehicles, and travel setups. This version features a Cluster Black finish and straight USB-A and Lightning connectors.

AI Summary

The Baseus Silky Series cable connects a USB-A charger or computer to compatible Lightning devices.

It supports charging current up to 2.4A and data synchronization at speeds up to 480Mbps.

The flexible PVC jacket is designed for comfortable handling and resistance to everyday bending.

Its 2-meter length provides additional reach for home, office, vehicle, and travel use.

Feature Highlights

Up to 2.4A

Supports charging current up to 2.4A with compatible USB-A chargers and Lightning devices.

↔ USB-A to Lightning

Connects a standard USB-A power source or computer to

▣ 480Mbps Data

Supports data synchronization at speeds up to 480Mbps between compatible devices.

a compatible Lightning device.

◆ Current Regulation

Designed to regulate charging current during compatible everyday use.

◈ Flexible PVC

The soft cable jacket supports easy handling, storage, and regular cable movement.

⌁ 2-Meter Length

Provides convenient reach when the charger or USB port is farther from the device.

Key Features

- **USB-A to Lightning Connection:** Designed for compatible Apple devices with a Lightning port.
- **Up to 2.4A Charging:** Supports charging current up to 2.4A with compatible equipment.
- **Data Synchronization:** Transfers compatible files at speeds up to 480Mbps.
- **Charging and Data Support:** Provides power and file synchronization through one cable.
- **Flexible PVC Jacket:** Offers a soft and easy-to-handle cable exterior.
- **Bending Resistance:** Designed to withstand regular movement and everyday handling.
- **Extended 2m Reach:** Provides additional distance between the power source and connected device.
- **Straight Connectors:** Uses straight USB-A and Lightning connector housings.
- **Cluster Black Finish:** Features a clean dark exterior suitable for everyday charging setups.

Performance & Experience

The Baseus Silky Series cable supports charging current up to 2.4A when connected to a compatible USB-A charger and Lightning device. Actual charging performance depends on the charger, connected device, battery condition, and supported charging requirements.

Data transfer speeds up to 480Mbps allow compatible photos, documents, music, and other files to be synchronized between a Lightning device and a computer with a USB-A port.

The flexible PVC construction is designed to remain comfortable to handle during use and storage. Its 2-meter length is useful for bedside charging, office desks, vehicle interiors, and locations where the USB port is not immediately beside the device.

Why Choose This Product?

- USB-A to Lightning connection.
- Charging current up to 2.4A.
- Data transfer up to 480Mbps.
- Charging and synchronization support.
- Soft and flexible PVC construction.
- Designed to resist everyday bending.
- Convenient 2-meter cable length.

- Suitable for compatible Lightning devices.
- Straight connector design.
- Cluster Black finish.

Technical Specifications

Brand	Baseus
Series	Silky Series
Product Type	Charging and Data Cable
Manufacturer Part Number	P10377702113-01
EAN	6932172668792
Connector 1	USB-A
Connector 2	Lightning
Maximum Charging Current	2.4A
Maximum Data Transfer Speed	480Mbps
Cable Material	PVC
Cable Length	2 m
Color	Cluster Black

Connectivity

Connection Type	USB-A to Lightning
Connector Orientation	Straight
Charging Support	Up to 2.4A
Data Transfer	Up to 480Mbps
Compatible Device Category	Compatible Devices with a Lightning Port

Ideal For

- Compatible Lightning smartphones
- Compatible Lightning tablets
- Charging from USB-A wall adapters
- Charging from computers and power banks
- Home and bedside use
- Office and desk use
- Vehicle charging
- Data synchronization

Who Should Buy This?

The Baseus Silky Series USB-A to Lightning cable is suitable for users who need a flexible 2-meter cable for charging and synchronizing compatible Lightning devices from a standard USB-A connection.
